

TRAFFIC CRASH INVESTIGATION 1

Learn to quickly & confidently preserve
critical crash scene evidence.

Northwestern | CENTER FOR PUBLIC SAFETY
nucps.northwestern.edu

The moments immediately following a traffic crash are crucial, and only a well-trained crash investigator knows how to identify and collect the necessary information at the crash scene. That critical training begins with the unmatched curriculum of Traffic Crash Investigation 1.

Crash 1 is the authoritative NUCPS introductory course that sets students on the path to becoming proficient in the skills required to quickly, successfully, and confidently obtain critical physical evidence and driver and witness information. Our team of expert instructors teach students how to: properly obtain and document at-scene information and evidence; gather information from drivers, passengers, and witnesses; measure and map the crash scene; and, create sketches and after-crash diagrams. Crash 1 also introduces students to EDR technologies and how the data investigators collect are used in crash reconstructions.

Crash Investigation 1 is based on the most recent edition of our seminal text, *Traffic Crash Investigation*, which is included in the course tuition.

CURRICULUM TOPICS

- Preparing for a traffic crash investigation
- Gathering information from and about people
- Obtaining Information from vehicles and from roadways
- Measuring and mapping the crash scene
- Photographing the crash scene and damaged vehicles
