What Premed Program Is Right For Me?

How many core science courses have you taken? This includes biology, general chemistry, organic chemistry and physics.

- **8 or fewer semester hours of core science courses**
  - Have you taken the MCAT or submitted an application to medical school?
    - **Yes**
      - This program is not right for you
    - **No**
      - What is your previous GPA?
        - Cumulative GPA of at least 3.0 or at least a 3.0 in science or math if applicable
          - Are you looking to retake courses?
            - **No**
              - Premed Completion
            - **Yes**
              - Advanced Studies in Biology
        - Less than 3.0
          - This program is not right for you
          - Less than 3.0
            - Cumulative and math/science GPA of at least 3.0
            - Are you looking to retake courses?
              - **No**
                - Do you have clinical and/or research experience?
                  - Yes
                    - Premed Completion
                  - No
                    - Advanced Studies in Biology
              - **Yes**
                - Advanced Studies in Biology
