Capping Our Year in the Built Environment Tuesday, December 4

12-1pm

Note location correction

Location: Wieboldt Hall, 339 E. Chicago Ave., Chicago

Join us for a review of architectural design trends and development that impacted Chicago in 2018. Lynn Osmond will take stock of another busy year for the urban realm, a year in which Chicago simultaneously celebrated its architectural heritage and braced for its future. There is growing momentum around tall building and mega-project proposals that will redefine existing neighborhoods and allow more people to enjoy the riverfront. Across the city, community-centered design continues to thrive, yet a huge disparity persists in new investments and neighborhood resources. How can good design help keep the issue of equity front and center?

**This event is free and open to all current OLLI members.
Registration is required.**
