### Population Malthus

Thomas Robert Malthus (1766-1834) is irrevocably linked with one of the foremost dilemmas of our time: the precarious balance between the population and exhaustible global resources. Join Kirsty Montgomery (OLLI Director) and coordinator Phil Zawa to explore three of Malthus's most controversial themes: overpopulation; food scarcity; and government poor relief. **Click to learn more.**

\* Conducted online using Zoom software on your home computer, laptop, or tablet. Basic Zoom training will be offered for those who need it, but participants should be comfortable using the audio and video capabilities of their personal computers before enrolling.
